OBJECTIVE

To obtain a challenging position in a dynamic organization where I can apply my skills in web development, software engineering, and database management. Eager to contribute to real-world projects, learn emerging technologies, and grow both technically and professionally.

SKILLS

Languages	HTML, CSS, JavaScript, Java, C++, Python
Frameworks / Tools	Flask, NodeJS, Git, GitHub, VS Code, XAMPP
Database	MySQL, MongoDB (basic)

EXPERIENCE

Intern — SparkLab IT Solutions Pvt. Ltd.   *June 2025 – July 2025*

Gadhinglaj, Maharashtra, India (On-site) During my internship at SparkLab IT Solutions, I worked in the Python domain focusing on application development. I was assigned both static and dynamic tasks that enhanced my understanding of software logic and practical implementation. This experience strengthened my technical problem-solving skills and gave me hands-on exposure to real-world projects.

Key Highlights:

- Developed and tested small-scale Python applications for internal use.
- Gained experience in static and dynamic web-based project modules.

PROJECTS

Recipe-Modifier   GitHub Link

Full-stack web app using Flask and MongoDB to modify recipes based on medical conditions. Features ingredient analysis, AI-powered recipe generation, PDF reports, and user authentication.

AI Cover Letter Generator   GitHub Link

Flask + React app to generate professional cover letters from resumes and job descriptions using Google Gemini API. Features resume upload, skill extraction, and modern responsive UI.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science   2022 – 2026

Sant Gajanan Maharaj College of Engineering, Mahagaon

Class: First Class

Higher Secondary Certificate (HSC)   2021 – 2022

Maharashtra State Board

Class: First Class

SUMMARY

Skilled in HTML, CSS, JavaScript, and basic Node.js and MongoDB. Built responsive and user-friendly applications. Completed projects like e-commerce websites, chatbots, and blogs. Fast learner, works well in a team, and ready to contribute to projects.
