PROFESSIONAL SUMMARY

Data Analyst skilled in Python, SQL, Power BI, Data Visualization, Data Cleaning, Dashboard Development, and Business Intelligence. Experienced in exploratory data analysis (EDA), data storytelling, and generating actionable insights from data. Currently working on analytics projects at CodTech IT Solutions and passionate about solving business problems through data-driven decision-making.

SKILLS

Languages & Querying	Python, SQL (PostgreSQL)
Data Visualization	Power BI, Matplotlib, Seaborn, Storytelling with Data
Analytics & Statistics	Statistics, EDA, Hypothesis Testing, NLP Basics
Tools & Databases	Pandas, NumPy, MySQL, MongoDB, Git, GitHub, VS Code

EXPERIENCE

Data Analyst Intern — CodTech IT Solutions May 2026 – Present

- Working on 4 industry-oriented Data Analytics projects involving data cleaning, analysis, visualization, and reporting.
- Using Python, SQL, Pandas, NumPy, and Power BI to extract insights from datasets.
- Performing exploratory data analysis (EDA), data preprocessing, and dashboard creation.
- Generating business insights through visual reports and data storytelling.

Data Analytics Job Simulation — Deloitte Australia (Forage) 2026

- Completed a Deloitte Data Analytics Job Simulation involving real-world business scenarios.
- Analyzed client datasets and developed dashboard visualizations to support decision-making.
- Applied data analysis and storytelling techniques to communicate findings effectively.
- Produced a forensic technology report with actionable recommendations.

PROJECTS

E-Commerce Review Sentiment Analysis & Insight Engine GitHub

- Built an NLP pipeline using VADER (NLTK) to classify 10,000+ customer reviews (Positive/Neutral/Negative).
- Performed EDA and generated 8+ visualizations: rating trends, sentiment distribution, keyword analysis.
- Delivered actionable business insights that identify customer pain points and satisfaction drivers.

HealthRecipeAI (Recipe-Modifier) GitHub

- Developed a full-stack Flask + MongoDB web app with ML-powered recipe recommendations.
- Integrated Gemini API for AI-based ingredient analysis and personalized dietary suggestions.
- Enabled PDF report generation, user authentication, and USDA nutrition data lookup.

CERTIFICATIONS

- Deloitte Australia Data Analytics Job Simulation** — Forage, 2026
- Python for Data Science** — NPTEL 2026
- SQL Skillup** — GeeksForGeeks 2026

EDUCATION

B.Tech in Computer Science 2022–2026

Sant Gajanan Maharaj College of Engineering First Class

HSC 2021 – 2022

Maharashtra State Board 65.17%

SSC 2020 – 2021

Maharashtra State Board 91%
